

Defence Research and Development Organization (DRDO) & PHD Chamber of Commerce & Industry (PHDCCI) have signed a Memorandum of Understanding (MOU) for Facilitating Transfer of Technology (TOT) to Industry

The MOU records the understanding between DRDO and PHDCCI wherein PHDCCI would assist DRDO in identifying appropriate industries and assess existing Defence Technologies for Civilian Spin-off through facilitating Transfer of Technology (TOT) to industries from DRDO.

DRDO will from time to time give PHDCCI list of Defence Technologies that may have commercial potential for civilian use and PHDCCI will identify opportunities for introduction of technologies developed by DRDO for civilian applications and also identify industries that can benefit from the technologies

PHDCCI will facilitate in assessing the commercial value of identified Defence Technology for Civilian application through market research and will also evaluate the volume of Potential Market for the technology.

The MOU permit PHDCCI to assist the DRDO for a period of 24 months.
