The Indian Infrastructure sector is the growth engine driving India to become USD 35 trillion GDP economy by 2047.

To achieve this magnificent target, Government of India has initiated various policy and regulatory reforms such as promotion and adaptation of Alternative Dispute Resolution mechanisms such as Arbitration, Conciliation, Mediation and Judicial settlement; and Standardization of documents to help minimize disputes, remove disruptions and improve development pace in projects.

In this direction, PHDCCI, one of the leading Industry chambers in association with M/s ProUltimus Consulting Pvt. Ltd, is organising a Conference on Dispute Resolution and Arbitration Norms for Construction & Infrastructure Sector – An Indian and International Perspective on Saturday, 7th December 2024 at 10 a.m., PHD House, New Delhi

The Conference's objective is to analyse the developments in dispute resolution and arbitration in India, discuss their impact, highlight the key unresolved issues and examine the way forward. The conference will also offer a platform for different stakeholders to share their experience and exchange views and opinion.

But when it comes to global rankings in enforcement of contracts, time and cost overruns and legal disputes with respect to infrastructure projects India's has still long way to go. In addition the lack of a mechanism for resolving disagreements also poses as a challenge to infrastructure development as there is a risk of project delays.

Parties to the conflict will have a higher chance of mitigating delay risks by involving technical experts in the dispute resolution process. Effective ways to address disputes and deadlocks will avoid project cost overruns and facilitate smooth completion.

A large number of delegates from Industry, senior officials of Central and State Governments, Policy Makers, Legal Experts, Thought Leaders, Financial Institutions, etc. are expected to attend the Conference.

TEAM PHDCCI

TARGET AUDIENCE

SALIENT FEATURES OF THE CONFERENCE

CONFERENCE /SEMINAR
EXHIBITION
NETWORKING LUNCH

The conferences would be immensely useful for professionals forming a part of "Commercial and Legal" departments in their respective organisations, who need to stitch together myriad tax, legal and project management insights in order to arrive at optimum and competitive business decisions. Professionals specialising in the domains of law, contract management, taxes, project management and finance would also find this conference hugely beneficial.
