

India's GDP Grows at 6.7% in Q1 of FY 2024-25

Q1 FY25 GDP at 6.7% inspiring Economy growing robust despite global headwinds

India's growth at 6.7% in FY 2024-25 is inspiring despite deepening geopolitical distress and global macroeconomic headwinds. India remains resilient and has emerged as a growth leader among the major advanced, emerging and developing countries. India is showing strong resilience with the support of a conducive policy environment and the efforts of trade and industry. The Q1 FY 2024-25 GDP growth at 6.7% indicates a strong growth trajectory to continue in the coming quarters too. Manufacturing, construction and electricity sectors have become the major growth drivers in the recent quarters. The manufacturing sector has grown at 7% in Q1 FY 2024-25 on the back of strategic reforms and prudent policy measures by the government and efforts of industry. The consistent growth in the construction sector is indicating the creation of new employment as the construction sector absorbs skilled, semi-skilled and unskilled chunks of the workforce. High growth in the Electricity, Gas, Water Supply & Other Utility Services at 10.4% in Q1 FY 2024-25 is motivating as this will boost the manufacturing activities in the economy. The tertiary sector growing at a steady pace of 7.2% is inspiring, displaying that India's growth momentum will continue. The gross fixed capital formation at 34.8% of GDP for Q1 FY 2024-25 is indicating steady capacity expansion for more employment opportunities in the coming times.

The National Statistical Office (NSO), Ministry of Statistics and Programme Implementation released in its Press Note the estimates of Gross Domestic Product (GDP) for FY 2023-24, both at Constant (2011-12) and Current Prices.

GDP Growth and its Components

India has experienced a commendable growth trajectory characterized by an expanding Gross Domestic Product (GDP). The sectors contributing significantly to this

growth include Manufacturing, Construction, Electricity, Gas, Water Supply and other Utility Services, Mining and quarrying, Public Administration, Defense, and other Services. These sectors have emerged as key contributors, playing pivotal roles in shaping and bolstering India's economic advancement. This observation underscores the diverse and multifaceted nature of India's economic landscape, highlighting the strategic importance of various sectors in driving the nation's overall economic growth.

Growth of GVA so far

Components	Yearly Estimates					
	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25 Q1
Agriculture, forestry & fishing	6.2	4.1	3.5	4.7	1.4	2.0
Mining & quarrying	-3.0	-8.6	7.1	1.9	7.1	7.2
Manufacturing	-3.0	2.9	11.1	-2.2	9.9	7.0
Electricity, gas, water supply & other utility services	2.3	-4.3	9.9	9.4	7.5	10.4
Construction	1.6	-5.7	14.8	9.4	9.9	10.5
Trade, hotels, transport, communication & services related to broadcasting	6.0	-19.7	13.8	12.0	6.4	5.7
Financial, real estate & professional services	6.8	2.1	4.7	9.1	8.4	7.1
Public administration, defense & other services	6.6	-7.6	9.7	8.9	7.8	9.5
GVA at Basic Price	3.9	-4.2	8.8	6.7	7.2	6.8
GDP at Basic Price	3.9	-5.8	9.1	7.0	8.2	6.7

India's Growth Trajectory

Source: PHD Research Bureau, PHDCCI compiled from CSO and MOSPI

India's economic trajectory has exhibited encouraging trends, marked by a robust growth trajectory. Amidst the deepening geopolitical distress and macroeconomic headwinds, India's Gross Domestic Product has consistently surpassed the 7% mark in the past, reflecting resilience and recovery in the country's economy. The continued high positive growth in Q1 FY 2024-25 is displaying India's strong economic fundamentals. These positive indicators underscore India's ability to navigate challenges and demonstrate sustained economic progress.
